

Drainage Inspection Questionnaire

Please read before you fill out the form below:

If you have a blockage this will need to be cleared before we can put our camera down. We can do this for a small charge or you can arrange another contractor to unblock and we can come back once the drain is cleared. If the blockage is due to EQ damage you may be able to submit this into EQC to recover your cost.

The drainage inspection itself is free of charge to you providing you have an existing EQC claim number (does not need to be a drainage claim, just any EQ claim at your property) and can provide us documentation confirming your claim number. This helps with the EQC submission process.

Owner and Property Details	
Full Name/s of Owner/s:	Address:
